12 October 2021

Dear Sir/ Madam,

**A358 Taunton to Southfields Dualling Scheme  
Statutory consultation – 12 October 2021 – 22 November 2021  
Planning Act 2008 section 42: duty to consult on a proposed application**

I am writing to you regarding National Highways (formerly known as Highways England)<sup>1</sup> proposed A358 Taunton to Southfields Dualling Scheme, which involves upgrading an approximately 8.5 mile (13.6km) section of the A358 between Southfields roundabout on the A303 and the M5 at Taunton, to a high-quality dual carriageway. Once upgraded, the route will reduce congestion, particularly at peak times, enhance user safety and improve connectivity both locally and to the wider South West region. This will benefit the local and regional economy and ensure communities are better connected.

The proposed scheme is identified as a Nationally Significant Infrastructure Project (NSIP) under the Planning Act 2008 (as amended) (the 2008 Act). This means we are required to make an application for a Development Consent Order (DCO) to get the consent we need to build the scheme. This application will be made to the Planning Inspectorate ('the Inspectorate') who will examine the application on behalf of the Secretary of State, to get permission to construct and operate the scheme. We intend to make our application for a DCO in summer 2022.

During the pre-application process, we must consult with a variety of persons and organisations about our proposed application in accordance with the requirements of the 2008 Act. You have been identified as a prescribed consultee; a host parish council in which the proposed development is situated, for the purposes of section 42(1)(a) of

<sup>1</sup> As of 20 August 2021, we are now National Highways, having previously been Highways England. The name change reflects the role of the strategic road network – to connect the nation's regions – and the part it plays in setting highways standards across the UK. The remit of the organisation has not changed, and we will continue to operate and maintain England's motorways and major A roads.

the 2008 Act and Regulation 3 of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (as amended).

This letter is being sent to you to provide notice of National Highways **statutory consultation** which runs from **Tuesday 12 October 2021 to Monday 22 November 2021 at 23:59**.

This statutory consultation is an opportunity for you to share your views on our proposals and we strongly encourage you to provide your views to us during this period. This will enable us to take your views into account in developing and refining our proposals before submitting our application to the Inspectorate.

As the project is an Environmental Impact Assessment (EIA) development as defined by the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the EIA Regulations) we have prepared, and provided, a Preliminary Environmental Information (PEI) Report to help you understand the likely effects of our proposals.

### Consultation documents
