

**Committee: Open Spaces**

**Date: 4 October 2022**

**Title: Recreational Ground litter pick station and signs**

**Purpose of Report**

To consider installing stations in the vicinity of Britten's Field and recreation ground

**Recommendation:**

Members resolve to agree the installation of litter pick stations and signs at the Recreation Ground and Britten's Field.

**Report:**

1. A suggestion has been put forward by one of the grounds staff that the council should consider trialling litter picking stations. **(Appendix 11A)**
2. Councils around the country have introduced these stations with varying degrees of success. The coastal towns would appear to have them available for beach cleans and some country areas have put them in place as well.
3. There will be a minimal cost for this to be implemented on a trial basis. Additional costs may be incurred if equipment is stolen or misplaced at any time.
4. Members resolve to agree the installation of litter pick stations and signs at the Recreation Ground and Britten's Field.
