Subject: Big green week event

Hi Julie

Further to our conversation I am writing to ask permission for Ilminster tree project and Green Ilminster to hold an event on the recreation area on the weekend of 25th/26th September. Several other community groups including Fairtrade, Quakers and Rotary are also interested in being involved. We are in discussion with IMEX for guidance and advice about holding the event. It is anticipated that the main focus will be an Apple pressing event plus other family focused activities.

These events are being held as part of 'The big Green Week' which is an initiative run by the Green Alliance, hoping to shine a light on the Cop 26 event being held in Glasgow this year when world leaders will be addressing climate change.

We will be using the event to raise awareness and action on Climate change and local resilience to our changing climate.

We have contacted both schools to ask the children to make some placards with messages to the world leaders and hopefully these will also form part of the weeks events. We are also hoping to persuade Marcus Fysh to attend.

We would be very grateful if the TC would agree to this vent taking place

Many thanks

Great Big Green Week Event 18th-26th September 2021

The Rotary Club wish to ask for the Town Council's permission to use the Market House on Friday 24th September 2021 for a charity sale as part of the Great Big Green Week event.

The Market House is currently booked on Saturday 18th September for the Town Crier Competition and it is also booked on Saturday 25th September for the Children's Carnival.
