

To: Open spaces committee  
Reference: Headstone

Dear committee members,

In December 2015 my husband, , suddenly passed away. I have three lovely boys, who as you can imagine are devastated in losing their Dad in such a sudden manner. We have a plot in the cemetery where we visit as a family on a regular basis. My boys and I would really like to have a headstone – this would give us something tangible for us to visit.

We have looked into the cost of a headstone and have been quoted around £1200, which at this difficult time we are unable to afford. We do however have a family member who works at Minsterstone, who have very kindly offered to donate a headstone. A local company helping a devastated family has come as a thoughtful and generous gift.

We, as a family would like permission to erect this headstone on plot.

We would arrange for a monumental mason to erect the headstone.

Please see attached the completed form.

Many thanks
