

Fair Trade Signage Open Spaces Committee 23 August 2016

The Iminster Fair Trade Committee have requested to use the Town Council's existing post supports on the signs at the entrances to the town, as the structural support for the Fair Trade signs.

The Fair Trade Committee have been in contact with Somerset County Council Highways who have said

"Our self-adhesive wouldn't stick to concrete. Even if you painted it then primed it we couldn't guarantee that it would stick for any length of time. We could offer a plate only to be bolted on if that's of any help.'

..... I am not prepared to erect a small post in front of the trough. I think you need to go back to ITC with this information and say the only option is to band onto their concrete posts and maybe not this year, but reduce the height of the soil in the trough or plant lower lying plants."

The Committee's decision regarding use of the existing posts is required.
