

19th Century Industrial
 Level of landscaping: low
 Level of hard standing: high
 Potential for further landscaping: moderate
 due to the requirement for lorries turning and deliveries

Large expanse of tarmac and concrete for parking

Dilapidated and unkempt frontages

Late Twentieth Century - Blackdown
 Level of landscaping: high
 Level of hard standing: moderate
 Potential for further landscaping: high

Accessible communal parking and green space

Large front gardens for privacy, parking and storage and chimneys that add to the roof-scape

Late Twentieth century - Summerlands
 Level of landscaping: moderate
 Level of hard standing: moderate
 Potential for further landscaping: moderate

Large front gardens for privacy, parking and storage and chimneys that add to the roof-scape

Large front gardens for privacy, parking and storage and chimneys that add to the roof-scape

Ilminster roof-scape

Interesting roof lines form part of the horizon

Far reaching roof scape seen from public footpaths add to the character of Ilminster

Historic thatch and slate roofs with chimneys fall away with the street topography, making the building form nestle within the undulation

Attractive pattern of terrace roofs following the topography and chimneys creating interest in form and features.

The manse forms a large part of the roof-scape and the identity of Ilminster.

The topography allows close up and direct views of roof tops, features and chimneys.
