

INVITATION TO A PUBLIC DROP IN SESSION

Flooding in the Ditton Street area of Iminster

**MONDAY 14TH AUGUST 2017 BETWEEN 3:30PM AND 7PM
Minster Rooms, Court Barton, Iminster**

We would like to invite residents to take the opportunity to call-in and meet with Somerset County Council Flood Team and Highways Officers, representatives from South Somerset District Council and the Environment Agency who are working closely to investigate the flood event of 23rd July 2017.

The investigation will establish the mechanisms that have contributed to the flooding and set out actions in response. It is intended that the investigation will be the first step towards identifying feasible mitigating measures and how these might be taken forward. To assist and inform our investigation work we would be grateful for any photographs and videos the town council or community may have taken of the flooding. While we have received some already the more information we have the better. It will also be an opportunity for residents to discuss with the various representatives their concerns and what the outcomes of this work will be.

We encourage all residents affected by the flooding to attend and share their opinions and information.

WE LOOK FORWARD TO MEETING YOU AT THE EVENT.
