

Joshua Windsor

1st Ilminster Scout Group

10th March 2019

Dear, Ilminster Town Council (Open Spaces Committee)

Firstly , I would like to apologies that I am unable to attend tonight due to running our weekly scouting meeting tonight , whilst we work towards the gardening badge tonight.

I am just writing to enquire if you would be able to let us have access to your water tap that is situated in the market square.

As at the start of this year we decided to do the new gardening badge with the young people this month. Therefore at our HQ ,I have re developed some scrub land and turned it in to an allotment, where we can get the cubs growing their own fruit and vegetables and to learn where food comes from and how it is harvested.

How ever we have no access to an outside water tap at ' Ile youth centre , Frog Lane' , I spoke to the committee within the youth club and they would not allow me to connect a water butt I have to there outside drainage pipe, to allow us to fill this up with rainwater to allow us to water our crops. They are also in difficult decision with us using the water from inside too when we have our weekly meetings on a Tuesday evening.

We would only need to use on an average of one evening a week for less than an hour so we can transport the water to fill up our water butt , therefore once this is filled up we should not need to have access to the water tap again.

Your kind generosity would be much appreciated and would help us by watering our area so the cubs crops can grow strong and healthy.

Thank you, Yours In Scouting

Joshua Windsor

Assistant Cub Leader

Below is our allotment development which was opened last week by the Ilminster town mayor.
