**P87A358 Consultation**

The Town Council's response regarding the consultation on the A358 Taunton to Southfields Dualling Scheme was considered.

Issues discussed during consideration of this application included:

- Could a cycle way be incorporated into the plans
- The technical appraisal has route options that are not included in the consultation
- The proposed route would be longer distance for people to travel between Taunton and Ilminster
- There is reference in the consultation documents to the new Taunton business park but there is not any consideration for businesses in Ilminster and Ilton e.g. the economic development of the Southfields site
- Flooding propensity of adjoining roads
- The impact on access to residential properties along the A358 and the neighbouring villages

**RESOLVED** that a letter is sent in response to the consultation expressing concerns about the lack of attention given to opportunities for economic development and the impact on existing businesses especially those in Ilton and Isle Abbots and also suggesting the incorporation of a cycle way.

**P88 Parking / Road Layout Issues**

a) Parking provision near the former Methodist chapel

Issues discussed during consideration of this topic included:

- Chicane effect of current parking arrangement
- The existing parking arrangement can have a traffic calming effect
- Visibility for people accessing and egressing from the homes in the former Methodist building

**RESOLVED** that no recommendation is made and any decision regarding the parking arrangements and restrictions near the former Methodist chapel are made by the Somerset County Council Highways Department using their professional expertise and taking into account all the relevant safety factors.

b) Road layout at The Triangle (and access to the car park)

Issues discussed during consideration of this application included:

- Safety of vehicle users
- Need clearer road marking and signage

**RESOLVED**

- (i) to recommend no entry at all at the top of West Street –
- (ii) all signage and road markings to be in keeping with conservation area

**P89 Additional Bus Shelters**

Councillors were given information that had been researched regarding the positioning and costs of bus shelters in order for a decision to be made as to whether or not further work should be undertaken within preparation for future budget considerations.

Price estimates had been sought from 3 companies for the supply and installation of a mid-range shelter – similar in size and structure to the existing one located on Canal Way

The school bus stops at the Crown Inn, The Stonemasons, Listers Hill and Blackdown View  
Issues discussed during consideration of this topic included:

- outside The Crown is not suitable for a bus shelter due to the drop from the pavement to the road,
- Listers Hill already has a bus shelter on one side of the road
- Additional shelters would improve the experience of people using buses and be of benefit to all bus users not just children and young people on the school bus
- It is important to encourage people to use the bus services

**RESOLVED** continue the research to have information available for the budget process

The meeting closed at 20:30hrs
